

Differences between Cambridge English Qualifications Digital sample tests and the live exam

There are minor differences between the digital sample tests accessed via our website and the live exam itself. These differences are as follows:

- In the sample tests, there is a 'start over' button on the final page. This will delete all your answers in the test. This button will not be present in the live exam.
- The highlighting will not save in the sample test, and the notes are not functional. These will work in the live exam.
- In the live exam, when there are 5 minutes remaining, the time switches from showing only minutes to showing minutes and seconds and the background will change colour.
- The digital sample test does not mark your exam, so check your answers as you do the test using the answer keys below. Once the test has finished you will not be able to check them.
